DESKING SYSTEM

PLATFORM SERIES43

UNCOMPLICATED
CONCEPT

Platform is a main image for Desking System as well but still full of the utility in all aspects. And users could allocate each work-space appropriately.

L - TYPE SINGLE DESK

L-Type Single Desk is a desk for general administration jobs. There is more space compared to the normal desks. It is also a customizable desk for manager level. Visitor chairs can be arranged in front of the desk. By installing a piece of modesty with spacing of 170 mm from the front desk provides a sufficient space for guests while sitting comfortably.

PROPER EMPLACEMENT

FOCUS ON MORE UTILITIES

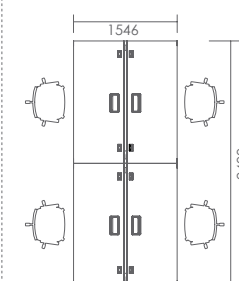

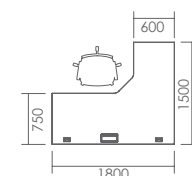

DOUBLE BENCH FOR SCREEN FRAME

Double Bench is a desk set with four seats supporting all usage formats. It can be added some accessories such as aluminum screen frame with full-length of the desk. Aluminum screen frame can be installed to the desk smoothly. No gap between the desks, and not only to make a good looking but to add more privacy to the user as well.

Furthermore, shared legs are designed to support interactive movements, and inside space is for wiring as well.

RANGE OF PRODUCT

SINGLE BENCH CONNECTOR SYSTEMS

Single Connector has been designed to enlarge the number of Work Station in a limited space whether it is a narrow or wide area. The Single Connector allows us to adjust the number and size of Work Station even more convenient.

PROPER EMPLACEMENT

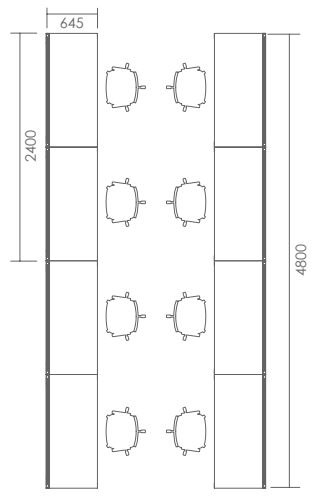

DESIGN FOR A LIMITED SPACE

SINGLE BENCH CONNECTOR SYSTEMS

In addition, the bracket is built up inside of each single connector which makes users feel secure and more comfortable while sitting. There is Universal Track for screen and work tool installation seamlessly. Any wiring can be arranged via grommet at the end of aluminum track conveniently. The user can manage wiring across desk by desk orderly.

RANGE OF PRODUCT

DOUBLE BENCH CONNECTOR & END DESK

Double Bench Connector can be installed to the desk set to increase length of the desk set as needs. Users can add parts of end-desk at the head-end of the desk set. It is also used to divide the working class for manager level in limited space perfectly.

TASK LIGHT FOR DOUBLE DESK

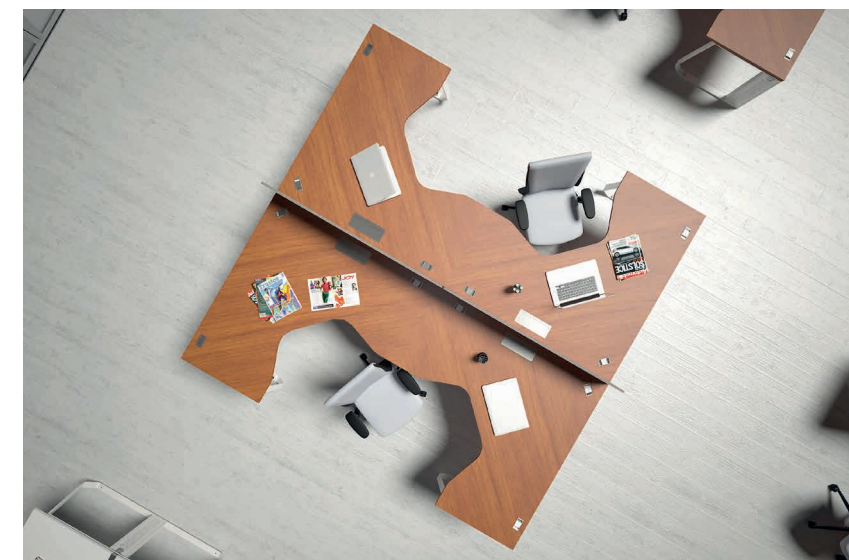

Task Light can be installed for both desk sets with Universal Track.

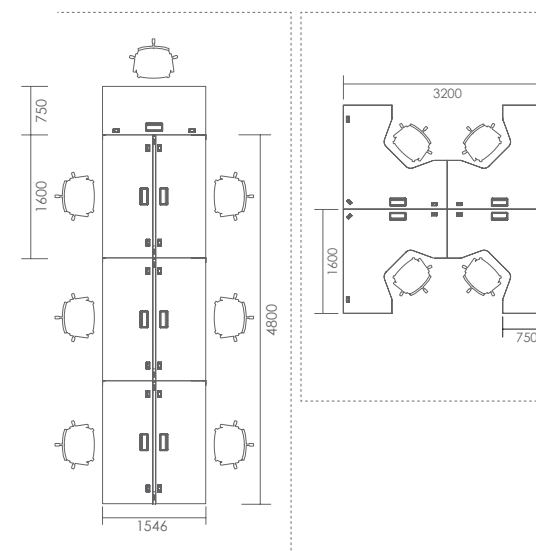

SUITABLE FOR ALL SIZING AREA

INDENT DESKING SYSTEM

Indent Desking System is fit for team working by putting the Desking System together as a group to create an atmosphere of teamwork. However, users can install screen for each individual's privacy. In addition, users can arrange for wiring into the rail from one desk to another desk within the same group as well.

RANGE OF PRODUCT

SUPERB DESIGN

SINGLE & DOUBLE DESK

HYBRID DESKING SYSTEM

HYBRID DESKING
CONCEPT

has been designed to meet the requirements of limited - area
arrangement with the highest benefit.

HYBRID DESKING SYSTEMATIC

The cabinet has been built up with the desk in order to eliminate unused space. Due to the normal use of the stand-alone cabinet, there are some waste areas which are not in use especially space between the cabinet and the desk. Hybrid Single & Double Desk System have been designed to dispose the problems entirely.

DESIGN TO SUPPORT

INTERACTIVE MOVEMENTS

CENTRAL CABINET HYBRID SYSTEM

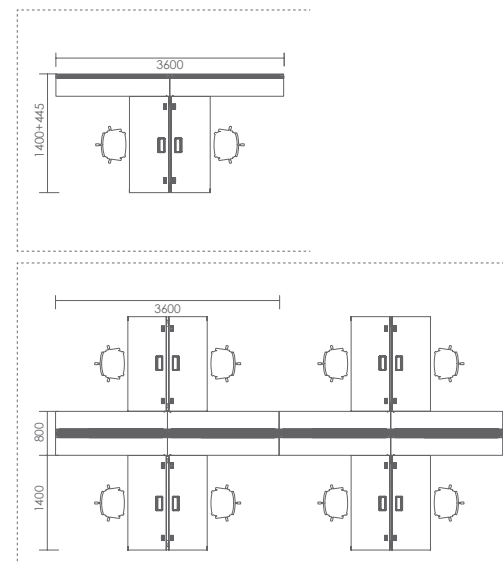

250H Overhead Storage are added up from the lower cabinet. They have been designed to store files, all types and more. And small niche at both sides of overhead storage can be also used as a common area between desks as the area for discussion and brainstorming as well.

2 - Cabinet with drawer has been designed to keep all container type of document files. It can be used for both one-side and two-side.

In addition, the cabinet is also designed to support the different areas. Some drawers are created with same function as mobile pedestal.

RANGE OF PRODUCT
